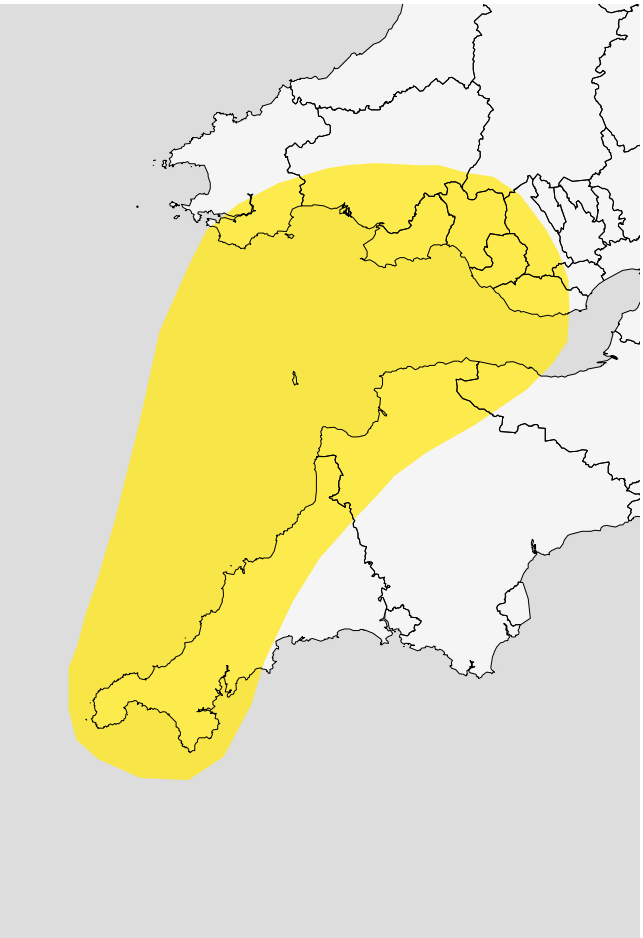
Yellow warning
Thunderstorm

Between
15:00 Thu 3 Nov 2022 and
23:59 Thu 3 Nov 2022



Heavy, thundery showers affecting parts of south Wales and southwest England on Thursday afternoon and evening.

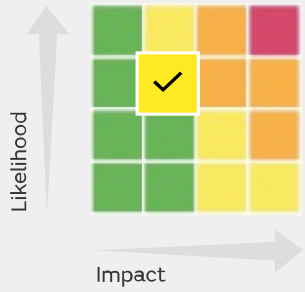
What to expect

- Some flooding of a few homes and businesses likely, leading to some damage to buildings or structures
- There is a good chance driving conditions will be affected by spray, standing water and/or hail, leading to longer journey times by car and bus
- Delays to train services are possible
- Probably some damage to a few buildings and structures from lightning strikes
- Some short term loss of power and other services is likely

Further details

Heavy showers and thunderstorms will cross southwest Wales and then parts of southwest England during the second half of Thursday. Following heavy rainfall in the past 24 hours, some places may receive an additional 30-40 mm of rain in a few hours which could lead to some surface water flooding, particularly where showers are slow moving.

Thunderstorms will be mostly limited to coastal areas where lightning and hail may be additional hazards. In exposed spots across southwest Cornwall during the evening there is also the potential for strong wind gusts (50-60 mph) in association with these thunderstorms and showers.



Medium likelihood of low impacts
